

## Press Release

### ***Launch of Meerut ACM Rare Disease Research Hub***

Meerut, India – 22/03/2025 – **The Meerut ACM Chapter proudly unveils the Meerut ACM Rare Disease Research Hub**, a pioneering initiative dedicated to advancing research, technological innovation, and scholarly publications in rare disease solutions and landscape studies. This hub aims to foster collaboration, drive impactful research, and shape the future of healthcare and environmental studies.

#### ***Advancing Rare Disease Research & Innovation***

*The hub is committed to:*

- *Promoting Research & Publications: Encouraging cutting-edge studies in rare diseases and landscape solutions through review papers, preprints, and book series.*
- *Strengthening Collaborations: Partnering with global research institutions, industry leaders, and policymakers.*
- *Ethical Research Assessment: Upholding DORA principles for transparency in research evaluation.*

#### **Call for Collaborations**

*We are actively seeking partnerships with NGOs, Rare Disease Working Groups, technology-driven companies, and government bodies to accelerate research and technological advancements in the rare disease domain. Through collective efforts, we can drive transformative breakthroughs in healthcare and innovation.*

*For collaboration inquiries, contact: [aryanchoudhary2@acm.org](mailto:aryanchoudhary2@acm.org)*
